CIS Car Rider Information 2025/2026 School Year

Student Safety is paramount in everything we do at CIS. The construction at CIS has presented some challenges in our existing car rider procedures. As a result, all Car Riders for the 25/26 School year will be dropped off and picked up in front of the school. Please do not enter the bus lanes at arrival or dismissal.

As cars turn onto Sorrento Drive, they should drive to the end of the road, turn right and enter the car rider queue. Upon entering, car riders will form two lines (depicted by the blue arrows). When they reach the appropriate spot in line, they will form a single file line and students should then be loaded & unloaded. Please assist the staff in ensuring all our students are following our safety procedures and only pick up/drop off at the designated place in line.

As we implement this new procedure, please be patient as safety is our number one concern.
