I. Purpose

Outline the manner in which grades are determined in the Smyrna School District.

II. Authority

Delaware Code, Title 14 § 155

III. Definitions

Grading: A process by which individual students are assessed to determine the extent to which each has achieved the instructional goals and objectives (learning targets and standards) of a course or area of study.

IV. Policy Statement

Philosophy

- a. The Smyrna School District Board of Education expects that grades assigned to students, based upon a professional evaluation of student performance in a particular course or area of study, are to be based solely upon predetermined student learning targets that are available to students and parents.
- b. A key purpose of grading is to assess student understanding in order to inform future learning and instruction.
- c. The Board of Education believes that a grade should never be construed as an end in itself.
- d. The Board of Education believes that evaluation of student progress in grades must be objective, understandable to students and parents, and communicate strengths and weaknesses of student performance.
- e. Final course grades will communicate the level of competency a student has achieved related to the knowledge and skills expected within a course or academic discipline.

Implementation

Regulations shall ensure that grading is consistent with this policy.

SMYRNA SCHOOL DISTRICT

POLICY

General Guidelines (Kindergarten-Grade 12)

- a. The intent of the reporting systems is to communicate academic achievement to students and parents. Grades must be an accurate reflection of the skill or concept being assessed and clearly tied to predetermined learning goals.
- b. Negative nor positive classroom behavior shall not affect students' grades. Social emotional development and/or work habits will be noted in a separate area of the report card.
- c. Each teacher shall communicate their grading system to students/parents at the beginning of each school year or semester as appropriate. Principals shall ensure that each grading system so distributed is consistent with:
 - i. the district's grading policy and regulation
 - ii. sound educational practice.
 - iii. other teachers in the same grade or department or who are teaching the same course/subject.
- d. Teachers shall have the responsibility for determining student grades consistent with the district's policy and regulation.
- e. At all grade levels, parents/guardians will receive communication stating mid-marking documentation has been issued or interim reports are posted and available online. Teachers may elect to send updates on student progress more frequently.
- f. Distribution
 - i. For grades K through 6, student report cards shall be distributed every twelve weeks. In addition to being available online, hard copies will be sent home.
 - ii. For grades 7-12, student report cards shall be distributed every nine weeks.
- g. Progress documentation will be shared with all parents/guardians at the mid-marking point of each marking period.
 - i. In Grades K -5, parents/guardians will receive content-specific information indicating students' progress toward specific learning targets.

SMYRNA SCHOOL DISTRICT

POLICY

- ii. In Grades 6 - 12, parents/guardians will receive an interim progress report, similar to the end-of-marking-period report card.
- h. The approved school calendar shall provide designated days for parent/conferences for Early Childhood through Grade 12. Additional conferences relating to student progress shall be scheduled as needed. Whenever possible, such conferences are to be arranged to accommodate parents'/guardians' schedules.
- i. A teacher's grades may not be changed by a school administrator without permission of the teacher.
- j. Exceptional Marks on Report Card
 - i. A student who is unable to complete classwork and assessments for a given marking period due to a recognized excused reason will receive an Incomplete (I) on the report card. This will remain on the report card until the student has been given time to complete work and a finalized grade can be determined.
 - ii. ESL Students, who have attended schools in the United States for three years or less, qualify for grades under the following conditions:
 - 1. A regular grade will be earned when they demonstrate ability to complete and pass grade level work; or
 - 2. An "S" (Satisfactory) grade when they can perform only modified/partial assignments due to their level of English Language Proficiency but are extending effort to complete and comprehend the work; or
 - 3. A "U" (Unsatisfactory) grade will be earned when no effort to attempt to do any level of modified work is made.

Elementary Grading Scale (Kindergarten-Grade 5)
